

About Viking EcoTours

Viking EcoTours is a locally owned family business that provides effortless and fun pedal kayak tours at the most beautiful natural springs and waterways in Florida. This hands free adventure allows you to take pictures, drink water, or point out the wildlife...a fun activity for all ages.

A guided tour with an experienced wildlife conservationist, so you will be in safe hands the entire time. The guide will help you into your boat and stay with you while on the water...pointing out all of the wildlife surrounding you.

Tour Packages

Wildlife EcoTour | Sunset EcoTour | Bioluminescent EcoTour

Pricing is based on per-person usage and includes the boat rental and 2 hours with an experienced guide. *All surfaces will be disinfected between visits.*

Hours of Operation

Open daily except Wednesdays. Call (601) 439-0292 or visit vikingecotours.com to make reservations.

Arrival & Staging

Arrive at the launch 15 minutes prior to your check-in departure time. You will meet your guide, get outfitted with a dry bag and life vest, grab a water bottle, and chill on the banks until game time.

We recommend wearing comfortable clothing for the expected weather and shoes that can get wet. It's likely only your feet will get wet but feel free to bring anything you think you might need (change of clothes, towels, snacks, sunscreen). Alcohol is prohibited. Float and pedal about 2-3 miles or roughly 2 hours on the water. Get your feet wet, pedal the river, enjoy the day, and witness the beauty of wild Florida. Please note that the time on the river fluctuates based on water flow, wind, rain, etc.

Our Partners

While we create meaningful connections and surreal experiences in the wild Florida that very few visitors see without expert local guides, we also give back to the community and environment. We've joined **1% for the Planet**, pledging to donate 1% of annual profits to non-profit organizations focused on the environment and partnered with Leave No Trace for education, training and outreach so we protect the pristine nature of Florida's waterways.
